

\$7M Investment from
NSF E-RISE RII Award #OIA-2417062
for:

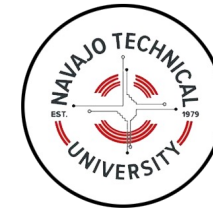

Building **Distributed Intelligent Additive Manufacturing Systems** that are optimized, secure, and resilient while developing the Next-Generation STEM workforce.

Collaboration Between
4 New Mexico Research Institutions
working toward
4 Research Goals
and
2 Education & Workforce Development Goals

11 University Faculty
with expertise in
Advanced Manufacturing, Cybersecurity, Distributed Networking Systems, Industrial Engineering, Artificial Intelligence, and STEM Education

National
Science
Foundation

Principal Investigator:
Satyajayant Misra (NMSU)
Co-Principal Investigators:
**Mihail Devetsikiotis (UNM),
Roopa Vishwanathan (NMSU),
Marceline Masumbe Netongo
(Navajo Tech),
Krishna Roy (NMT)**
